

Easier to Love You

©2004 Angel Records and Publishing

(Its so much) easier to love You
When things are going good
Its so much easier to know that, You are there
Is so much easier to feel your love
And know You really care
But even, when I doubt You, You're still there
When I'm going down or, Feeling mighty low
And satan tries to trick me, With his lies
And I begin to think that
These feelings might not end
You pull me up and I know
That You're more than just my friend
Still its much...

I try to find a way to, Never let You down
Oh I walking, Your way
And though I may stumble You will
Never let me fall
You hold me up and I know
That You'll always show the way
Yes its much...

And Jesus I do love You
Every minute of the day
I'm really glad I know that, You are there
And I do deeply feel your love
And know You really care
You'll never let me falter, You are there
