

Where Your Glory Overwhelms

To the place where nothing matters
To the place where all the world is left behind
To the place filled with your glory
To the place of the divine

To (In) your presence Lord
To (In) your presence Lord
Behind the veil where your glory overwhelms
To (In) your presence Lord

Lord I want (need) to go (be) to (in) your
presence
Worshipping before your throne
Lord I need to live in your presence
That's the only place that I am really home
