

Your Blood Was Enough

©1998 Angel Records and Publishing

In a world so vast, We're so small
Yet God, He knows us all
He knows liur faults, and He knows our shame
But He's always there if you'll call on His name

And though we sin, Though try as we might
Your blood alone, It makes us right
We seek Your face, You answer our call
We find forgiveness for them all

Jesus we love you
You've given your all
We only need answer your call
Your blood was enough
It covers us
And restores us from the fall

But You don't stop there, There's so much more
You've given us all that we need
And satan can't stop us, although he might try
Greater is He living inside
