

Light In the Darkness

©2001 Angel Records and Publishing

You're my light in the darkness
Showing me the way
You're my light in the darkness
Each and every day
You're my light in the darkness
Never go away
You're my light in the darkness
And I praise your name

The people who walked in darkness
Have seen a great light
Though they dwelt in the land of the shadow
Upon them a light
Has shined in the darkness
They know they have seen a great light

Though the darkness will cover
All of the earth
And deep darkness will cover
The peoples
The glory of the Lord shall be seen on the earth
For the Lord will arise over you

Oh I've seen a new Jerusalem
Coming down from above
Where the moon and the sun
Need not shine
But there shall never be

Any darkness there
For the glory of the Lamb is its light
