

Not Halfway

Lord You said we were in the world by not of it
Everywhere that I turn it bombards
From billboards to neighbors and TV and more
The world tries to make us like them

Come out from the world don't be like them
Don't worship their idols of gold
Be holy for you Lord are holy
Don't let you heart grow cold

We (I) need to be
Not halfway, All the way, Living for Him (2X)
Giving it all, not counting the cost
Living our (my) lives (life) just for Him

Be wise as a serpent and harmless as doves
I send you as sheep among wolves
Preaching the kingdom and teaching your word
Giving freely as we have received

Lord I want to be the salt of the earth
A light shining bright on a hill
Never to lose my saltiness
My light shining brightly still
