Now Moses he was out in the fields, Watching over his flocks
When he saw a burning bush, And the bush did not burn up
So Moses he said to himself, "I'll go check this out"
A bush that is on fire, And the fire does not go out

Then Moses got surprised, And all shook up inside
When out of the fire, The Lord spoke
Take your shoes off Mo, Though there's fire and smoke
You are standing so, In the presence of the

Holy ground, Holy ground
You are standing, In the presence of the Lord

Now Joshua he had his foe, All walled up in Jericho
He was getting ready for the fight
But God He had other plans, And He came with sword in hand
Josh said "Hey are you for us or for our foes?"

But Josh he was surprised, Put his face to the ground to hide
The Lord said "I have come, As captain of the hosts"
Take your shoes off now, As you bow to the ground
The place you're standing now, Is the presence of the Lord

Are you standin' on holy ground?
Feel His presence you're on holy ground
It's time to worship you're on holy ground
You are standing, On holy ground

In the presence of the Lord
