

So Real To Me

©1998 Angel Records and Publishing

I came from a church, Where I did no know
Jesus any more than that He love me so
And that He died for me, That He died for me
And on the third day that He rose again and that He lives
I did not know that He wanted to be
My best friend and give me victory
As I walked with Him, As I talked with Him
But I found out there at the place of prayer He really cares

He's so real to me, He's so real to me
Jesus is so real to me

I didn't understand that there's power in the blood
I could enter the prescence of Almighty God above
As I praised His name, How real He became
And I knew Him more than I ever did before through the blood
As I prayed for His kingdom and His will be done
I learned of the victory He had won
And that He gave to me, His authority
Over satan and his schemes, all the darkness had to flee and I could see

And He walks with me, And He talks with me
And He tells me I am His own
And He has become my best friend you see, And He never leaves me
alone

And there's power there as I declare, He lives in me
If you want to know Him like I know Him
I'm here to tell you you can
If you seek Him there at the place of prayer, He'll be your best friend
He will never leave you, Even until the end
