

You Really Need a Savior

©2014 Angel Records and Publishing

You're on a one way street that ends up in a dead end
On a one way street

You really need a savior, Someone to rescue you
You really need a savior, Someone to see you through
You really need a savior, Someone not far away
You really need a savior
Saving you

You need a savior who loves you
You need a savior who cares
You need a savior who knows you
You need a savior always there

You need a savior with power
That's not of this world
You need a savior with mercy
You did not deserve

Jesus is that savior
He can rescue you
Jesus is that savior
He can see you through
Jesus has the power
And he's not far away
Jesus is the savior
Call on Him today
